

## Seafood Pasta Salad

My inspiration <http://allrecipes.com/recipe/146764/colorful-seafood-pasta-salad/>

It's getting warm here in Minnesota. Pasta salad season is finally upon us. Here's a simple recipe that goes together quickly.

### Ingredients

2 cups dry elbow macaroni or pasta of choice  
3 small celery stalks, finely chopped  
2 green onions, green parts only  
8 oz Imitation crab meat broken into bite sized pieces  
1 cup frozen peas  
½-1 cup mayo  
½-1 tbsp sugar  
1-2 tbsp white vinegar  
1-2 tbsp milk  
Salt to taste, I used sea salt & seasoning salt  
Pepper to taste  
A sprinkle of garlic salt  
A squeeze or two of fresh lemon juice  
¼ cup of parmesan cheese, or more to taste

### Directions

Cook pasta al dente per directions.

While pasta is cooking chop your celery and green onion. When pasta is done, drain and transfer to a mixing bowl. Add all of the ingredients to your bowl and mix thoroughly. Now taste it and adjust it accordingly. If you like a sweeter salad add sugar. Savory, add salt. Saucy, add mayo and milk. Etc. You could add regular onion. Be creative. Make it a dish you love.

This is so simple and delicious. Very refreshing on a hot day!
